THE HUDDLE NETWORK

DISCORD APP / SEASON 1

HUDDLE HQ

The official Discord app of The Huddle Network. It runs game day, the credits economy, the Trade Desk, the Highlight Reel and the Academy, alongside Franchise Hub.

25 COMMANDS	RUNS 24/7	BUILT FOR THN

Setup and command guide. Read on your phone; every section fits one screen.

01 / WHAT IT RUNS

Game day, on autopilot

Every advance opens a game thread for each matchup. From there the bot handles the clock, the credits and the paperwork.

LEAGUE OPS

Game threads after every advance, Mon/Wed/Fri 8 PM PT countdowns, and the flex-day rollover when an advance slips.

GAME SCHEDULER

Suggests kickoff times both owners can make from their saved availability, in each member's own time zone. Two taps to lock.

ON THE CLOCK

Checks members in the moment their stream goes live, times every kickoff to the minute, pays Lock In and on-time credits and streaks, and strikes 16+ minutes late.

FINAL WHISTLE

Winner reports, opponent confirms. Complete, Double and VOD credits, plus Clean Division and Clean Advance bonuses at each advance.

RULINGS

No-shows, rage quits, sims and double losses in one tap from staff alerts. Unplayed games are flagged at every advance.

02 / WHAT IT RUNS

The network layer

CREDITS + SHOP

Every rule pays itself. A live credit log, leaderboards, and a shop for coaching and perks.

TRADE DESK

A WHY from both teams, a 3-person committee, auto-pass after 24 hours, a BREAKING Trade Wire post and Trade Grades.

HIGHLIGHT REEL

Clip queue for the clip team, featured clips, view milestones, and Clip of the Week voting with the Highlight role.

HUDDLE ACADEMY

7 levels in order with coach check-ins. Opens only for Standard and Pro, using the roles Whop gives.

CREATOR SCORE

An OVR card from Streaming, Social, Presentation, Community and Growth. It feeds promotion and relegation.

STANDS + PASSPORT

Scouting Reports, raids, chat credits, event check-ins, and viewer stamps with a monthly giveaway.

AWARDS + MEDIA DESK

Huddle Awards voting plus data awards, and a daily brief for the media team's show.

03 / WHO DOES WHAT

Huddle HQ + Franchise Hub

Franchise Hub keeps doing what it's good at. Huddle HQ runs everything that makes THN different.

Franchise Hub	Huddle HQ
Madden exports, stats, standings	Game times, live check-ins, kickoffs, finals
AI game recaps	Credits economy and the shop
Sportsbook	Strikes, rulings, Reliability Board
Processing trades in the file	Trade Desk: WHY, committee, Trade Wire
League file settings	Academy, Creator Score, clips, Passport, awards

NO MIX-UPS

Huddle HQ's commands are named so they never sit next to Franchise Hub's in the menu: **`/commish`**, **`/tradedesk`** and **`/matchups`**.

HAND-OFF

Approved trades post to the staff alerts channel with a reminder to process them in Franchise Hub. Score disputes come with the thread link and a fix command.

04 / SETUP

Create the bot

Discord Developer Portal. About 10 minutes.

STEP 1

Go to **discord.com/developers/applications**, choose **New Application** and name it **Huddle HQ**. Add the THN logo as the app icon.

STEP 2

Bot tab: **Reset Token** and copy it. That is your DISCORD_TOKEN. Treat it like a password.

STEP 3

Same tab, **Privileged Gateway Intents**: turn on **Presence Intent** and save. This is how the bot sees streams go live.

STEP 4

Copy the **Application ID** from General Information, put it in this link, open it, and add the bot to the THN server:

```
https://discord.com/oauth2/authorize?client_id=YOUR_APP_ID&permissions=328833551376&scope=bot+applications.commands
```

STEP 5

In Discord: Settings, Advanced, turn on **Developer Mode**. Right-click the server icon and **Copy Server ID**. That is your GUILD_ID.

05 / SETUP

Put it on Railway

Railway keeps the bot online 24/7. Hobby plan: $5 a month, which includes $5 of usage. A bot this size fits inside it.

STEP 1

Create a private GitHub repository. Choose **uploading an existing file** and drag in everything from the unzipped huddle-hq folder. Commit.

STEP 2

At `railway.com`, sign in with GitHub. **New Project**, then **Deploy from GitHub repo**, and pick the repository.

STEP 3: DO NOT SKIP

Right-click the project canvas, **Create Volume**, attach it to the bot, mount path `/data`. Without a volume, every deploy wipes the league.

STEP 4

Open the service, **Variables**, and add:

Variable	Value
DISCORD_TOKEN	Token from Step 2 of the bot setup
GUILD_ID	Your server ID
DB_PATH	/data/huddle.db

STEP 5

Deploy. The logs should say `connected as Huddle HQ` and `registered 25 slash commands`.

06 / SETUP

Connect your server

STEP 1

Server Settings, Roles: drag **Huddle HQ** above the member, league, Academy and fan roles. A bot can only give out roles below its own.

STEP 2

Run `/setup auto`. It links any channels and roles you already have by name and creates the rest in a HUDDLE HQ category with the right privacy. Staff channels are hidden, and bot feeds are read-only.

STEP 3

Run `/setup status`. Everything should show a check. Point any feature at a different channel with `/setup channel`.

STEP 4

In your join channel, run `/setup panel` to post the **Join THN** button.

STEP 5

Staff commands are hidden from members. Give Ops Staff the **Manage Messages** permission, or set exactly who sees what in **Server Settings, Integrations, Huddle HQ**.

OPTIONAL

`/setup link logo:` with an image link puts the THN logo on every bot post.

07 / SETUP

Whop and Twitch

WHOP: ACADEMY ACCESS

1. In Whop, connect your Discord server and drag the Whop bot above **Academy Standard** and **Academy Pro**.
2. Standard product: **What's included**, **Discord roles**, then + Academy Standard. Do the same for Pro with Academy Pro.
3. In Discord: **`/setup link whop:`** with your Whop page. Members without a paid role who open the Academy get that link.

Cancellations remove the role, and the Academy locks again on its own.

TWITCH DETECTION (OPTIONAL)

The bot already sees streams through Discord. Twitch keys also catch members who haven't linked Twitch to Discord.

1. At **`dev.twitch.tv/console`**, choose **Register Your Application**. Any name, redirect http://localhost, category Other.
2. Copy the Client ID and create a Client Secret.
3. Add TWITCH_CLIENT_ID and TWITCH_CLIENT_SECRET in Railway Variables and redeploy.

08 / LAUNCH

Season 1 checklist

Everything to do before the 11/13 start.

Done	Step
[ ]	Approve applications. The Approve button offers open teams on the spot.
[ ]	Every team assigned. **`/commish teams`** shows what's open.
[ ]	Members set /availability. The join form walks them into it.
[ ]	Import week 1 with **`/commish schedule-import`**. Paste one game per line: Raiders @ Chiefs.
[ ]	Advance into week 1 with **`/commish advance`**. Game threads post and the clock starts.
[ ]	Check the shop. Four starter items are in; edit them with /bank.
[ ]	Give 3 members Trade Committee. Set /commish deadline.
[ ]	Assign the Coach, Clip Team and Media Team roles.
[ ]	Run one preseason test game end to end before kickoff week.

09 / GAME DAY

What members do

All of it happens with buttons on the game post.

1. LOCK IT

Tap **Suggest Times**, pick one, and your opponent taps Confirm. Locked within 12 hours of the advance pays +5 each.

2. GO LIVE

Start the stream and the bot checks you in (Twitch or YouTube linked to Discord). On TikTok, tap **I'm Live**.

3. KICK OFF

Within 5 minutes of the locked time, tap **Kickoff**. On time pays +10 and grows your streak.

4. FINISH IT

The winner taps **Final Score** and the opponent confirms. +10 each, and +5 more for The Double.

5. POST THE VOD

Add VOD pays +5. Send your best moment with `/clip submit`.

NEED TO MOVE IT?

Use an Audible: 2 per season with 6+ hours' notice, no penalty. Shorter notice means no On The Clock credits for that game.

10 / AUTOMATION

What runs on its own

When	What the bot does
Every advance	Confirms finals, flags unplayed games to staff, pays division bonuses, posts the new week
Advance day, noon PT	"Advance tonight" with every unfinished game
1 hr to advance	Pings owners with open games
8 PM + 1 hr, no advance	Moves the advance to tomorrow 8 PM PT
Lock deadline, 4 hrs out	Pings games that aren't locked
Kickoff -15 / -10	Go-live reminder, then who isn't checked in
Kickoff +30, no kickoff	Force-win request for the on-time owner; ruling buttons for staff
Final + 6 hrs	Auto-confirms an unanswered score
Trade + 24 hrs	Auto-passes with no majority
Daily 9 AM / noon PT	Media Desk brief / Tonight on THN
Sunday 6 / 7 PM PT	Clip of the Week closes / Reliability Board
Monday 4 AM PT	Full backup to staff alerts

11 / COMMANDS

Member commands

Command	What it does
/join	Apply, or update your profile
/availability /stream	When you can play; your stream link
/game	time, suggest, kickoff, final, vod, dc, info
/golive	Check in live (TikTok, or any missed stream)
/matchups /tonight	This week's games; tonight's slate
/profile /score	Creator card, OVR, leaderboard
/credits /shop	Balance, leaderboard, how to earn; redeem
/tradedesk	propose, mine
/clip	submit, mine
/academy	progress, submit (Standard and Pro)
/stands	scout, raid, chat
/passport	stamp, card, code
/awards /draftrace	Vote and ballot; Gold Plan Draft Race
/help	Everything on one screen

12 / COMMANDS

Staff commands

Hidden from members.

Command	What it does
/commish	team-assign, team-remove, teams, move, remove-member
	schedule-import, schedule-clear, repost
	advance, advance-delay, advance-set, activate
	season-start, champions, season-review, season-apply
	eliminate, deadline, unfreeze
/ruling	forcewin, noshow, ragequit, sim, doubleloss
	settime, verify, final, reopen
/hq	dashboard, backup, score-rate, gotw-candidates, gotw-set
	clip-finalists, clip-crown, clip-views, event-open
	passport-draw, awards-open, awards-close, reviews, post
/bank	give, take, item-add, item-edit, redemptions
/strike	add, void, list
/setup	auto, status, channel, role, credit, limit, link, panel
Also	/academy setrole, /tradedesk grade

13 / CREDITS

Game day credits

Starting values. Change any of them live with /setup credit.

Credits	Rule
+5	Lock In: game time confirmed within 12 hrs of the advance
+10	On-Time Kickoff: live within 5 min of the locked time
+15	3-game on-time streak
+30	5-game on-time streak
+75	10-game on-time streak (+ Iron Clock role)
+5	Clean Division: every division game on time
+10	Complete Game: played to the final whistle
+5	The Double: on time AND complete
+5	Full Broadcast: VOD posted
+10	Complete Week: every game that week complete
+40	8 straight complete games
+5	Clean Advance: whole division complete before the advance
+20	Spoiler Bounty: underdog beat a contender

14 / CREDITS

Network credits

Clips, the Stands, the Academy and events.

Credits	Rule
+5	Clip accepted (Highlight Drop)
+5	Clip cut vertical with captions
+20	Clip featured on THN socials
+10	Clip hit 1K views on THN
+30	Clip hit 10K views on THN
+100	Clip hit 100K views on THN
+50	Clip of the Week
+10	Scouting Report
+3	Active chat in a member stream
+5	Raid to a live THN member
+10	Network event attendance
+25	Academy level completed
+0	Each unused Audible at season end (0 = off)

15 / RULES

Limits and thresholds

Change any of them with /setup limit.

Value	Setting
5	Clips per week that earn credits
3	Scouting Reports per week that earn credits
10	Active-chat credits per week
5	Raid credits per week
2	Audibles (reschedules) per member per season
6	Hours of notice an Audible needs
12	Hours after an advance to lock a game time
2	Kickoff must be this many hours before the next advance
60	Minutes after 8 PM PT before a missed advance moves to tomorrow
24	Hours before a trade with no majority auto-passes
6	Hours before an unconfirmed final auto-confirms
90	On-time % needed for Game of the Week
95	Completion % needed for Game of the Week
3	Strikes that freeze trades and Prime Time
5	Strikes that trigger a removal review
2	No-shows that trigger a removal review
2	Rage quits that trigger a removal review
70	Network League Creator Score minimum
5	Passport points for the THN Fan role
25	Passport points for the THN Superfan role

16 / GOOD TO KNOW

Before you launch

TIKTOK

TikTok LIVE can't be detected automatically. TikTok streamers tap I'm Live, or use /golive, at T-15.

AUTO CHECK-IN

Needs the member's Twitch or YouTube connected to Discord. Twitch keys from page 07 cover the rest.

RECORDS

Stats and standings live in Franchise Hub. Huddle HQ keeps W-L from reported finals for Creator Score, spoilers and promotion.

YOUR DATA

The whole league lives in one file on the Railway volume. A backup lands in staff alerts every Monday, and /hq backup works any time.

STRIKES

Late-kickoff strikes are automatic and logged with the reason. Staff can void any of them with /strike void.

DRAFTS TO REVIEW

The Academy check-in wording and the four starter shop items are placeholders. Edit them before launch.
